

FWPD ASKS YOU TO PROTECT YOUR PERSONAL PROPERTY!!

Record your serial numbers and keep them in a safe place!

A detailed description of your property, with value and serial numbers, is vital for the police to assist in the recovery of your items if they are stolen from your home or car, or for insurance if lost in a fire.

The FWPD recommends using this form or going to www.leadsonline.com and using the ReportIt feature to record the identification and value of your valuable property for the police and for insurance claims.

Brand/Manufacturer	Item /Description	Serial Number or Owner Applied #	Model Number	Color	Approx. Value

Tips: This form can be downloaded from www.fwpd.org, under Crime Prevention, New Property Form link. It is helpful to photograph your property, and to keep the photos on a computer or flash drive for future reference. Jewelry should be photographed with an ID card and a ruler, to show size. If your valuable items do not have serial numbers, engrave them with a unique number, such as your Driver's License Number. For additional information on how to store your property information safely electronically, go to the FWPD website. Alternatively, the FWPD encourages you to go to www.leadsonline.com, click Services, then click ReportIt and follow the instructions. Using ReportIt, you can safely store an inventory of your belongings electronically in a secure file, with photos, for retrieval in the event of a theft or fire.

FORT WAYNE POLICE DEPARTMENT: For emergencies call 911, non-emergency call (260)427-1222, Investigative Support Division call (260)427-1201
